

PROJECT STRUCTURE

Project name	Developing a Flight Delay Prediction Model using Machine Learning.
Team ID	PNT2022TMID00047

The project folder contains the following folders

- 11.Flight_delays.csv is the dataset used for training our model.
- accuracyconfirm(3).ipynb is the python file where the ML algorithm is applied to the dataset for testing and training. Finally, the model is saved for future use.
- picklee.pkl is the saved model used in the flask to predict the output instantly for the given inputs.
- To build a Flask Application, save HTML pages in the templates folder and a python script app.py for server-side scripting.
