

PROJECT DEVELOPMENT PHASE

Sprint 4

Date	19TH NOVEMBER 2022
Team ID	PNT2022TMID00047
Project Name	Developing a Flight Delay Prediction Model using Machine Learning

The user can predict he flight delay

ENTER THE FLIGHT DETAILS

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5000/mainpage". The page title is "Prediction of Flight Delay" and there is a "logout" button in the top right corner. The background of the page features a high-angle view of a commercial airplane flying over a layer of white clouds under a clear blue sky. On the left side of the browser window, there is a sidebar with a menu icon, a document icon, and a plus sign. The main content area contains a form with the following fields and values:

- Enter the flight number: 1399
- Month: 2
- Day of Month: 4
- Day of Week: 5
- Origin: JFK (dropdown menu)
- Destination: SEA (dropdown menu)
- Scheduled Arrival Time: 22
- Scheduled Departure Time: 1
- Actual Departure Time: 1

At the bottom of the form, there is a blue "SUBMIT" button.

The prediction is made:

127.0.0.1:5000/predict

Prediction of Flight Delay

logout
